

INTRODUCING OUR ECC-100 - END-LOAD CARTON CLOSER

Optimise your production line with this economical manual loading carton closer with automatic gluing and closing functionality.

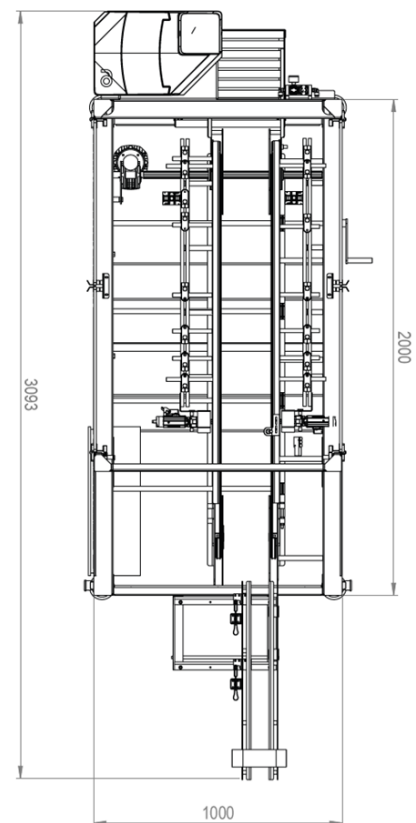

ABOUT THE VANNPAX ECC-100

The Vannpax ECC-100 End-Load Cartoner Closer was developed and designed as an entry-level option to close and seal display cartons with an automatic closing and glueing system.

Product is manually loaded and placed into the carton closer to be automatically closed and sealed. This low maintenance machine can handle different formats without any change parts and can run up to 50 cartons per minute.

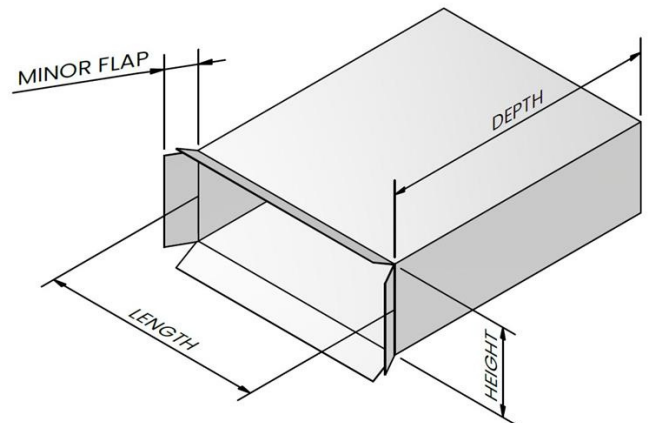

BENEFITS OF THE ECC-100

- Affordable, entry level machine suitable for growing businesses and new product launches.
- Reduced labour requirements.
- Automatic closing and gluing systems ensure consistent quality.
- Optimised glue-saving from a pattern controlled Robatech gluing unit.
- Time-saving on change-overs – no tools or change parts required.
- Large adjustable carton size range.
- Machine can be equipped with castor wheels for movability.
- Low maintenance with minimal operator qualification required.
- Simple operating procedure.
- No pneumatic parts except for Robatech air supply to operate pump and glue applicators.

TECHNICAL INFORMATION

- Top quality components, locally supported
- Full stainless steel construction
- Continuous motion carton feed
- Variable speed control
- Robatech hot melt glue system

SPECIFICATIONS

Control System	• No PLC, Variable Speed Drive	Speed	• Up to 50 cartons/min
Dimensions	• 3100 (L) x 1000 (W) x 1800 (H) mm	Design	• Stainless Steel. • Compact with low maintenance
Safety Measures	• Safety doors with sensors	Max Carton	• 380 (D) x 280 (L) x 100 (H) mm
Electrical Supply	• 400 V 3 Phase, 10 kW	Min Carton	• 100 (D) x 70 (L) x 40 (H) mm
Compressed Air	• 6 Bar, 200 l/min	Infeed & Outfeed Height	• 900 mm +- 50 mm

WHY VANNPAX?

- Engineered, designed and manufactured in South Africa.
- Full range of cartoning machines, from manual loading to fully automatic cartoners.
- Extensive experience with decades of expertise in FMCG industries.
- Innovative and reliable. Combining cutting-edge technology with proven methodology.
- Simplicity, hygienic design and ease of operation, maintenance and changeover are essential to the consumer goods manufacturing sector, we understand these needs implicitly and design our solutions to be ergonomic.
